

Mobile Content Browser

In partnership with Cumulus Technology Ltd, Square1 have developed a new Mobile Content Browser that enables you to offer you clients a walled garden mobile content site.

Billing is provided by CC or via SMS.

The content can be our own pre-loaded content or you may wish to provide your own content via our Browser Application.

The SQ1 Content includes:

- Ringtones
- Logos
- Pictures
- Wall papers / screensavers
- Java Games
- And much more.....

Square1 work with a selected team of content providers to offer you what we feel is the very best available.

There is no end to the content or services that can be supplied via the browser, so for more detailed information please call us.
