

Mobile Wave (Picture Delivery Platform)

The market place for Adult Mobile Content is one of the fastest growing sectors and offers you a great opportunity to generate new revenues.

With the now widely available full colour and JAVA™ mobile handsets this market place is set to generate substantial revenues in the coming years.

We are now able to offer a great new picture delivery platform that enables mobile users to request pictures they want, we then send these direct to the mobile handset dynamically rendered for there handset.

Billing for this can be via sms or by 090 PRS.
