

Sports, Betting and tips

SPORTS AND BETTING

Square 1 provides both a Horse Racing Information Service (the most popular premium rate service in this sector) and also a general sports betting information service covering any sport where good information becomes available.

Both services utilise top quality information from a well known, respected tipster of many years standing.

If you wish to offer your tips, spread betting or sports information this is also possible by utilising one of our many IVR services allowing you to up load your information remotely.

We can even provide a branded website and if you want to see what this might look like please visit

www.thenagger.co.uk
